RJ45 plugs for cable assembly

The Supra RJ45 connectors developed specifically for our ethernet cables are easy to assemble at home or on-site. It provides a strong cable clamping, allowing long service life also when frequently connected. The RJ45 Cat 8 is specially developed for maintaining the astonishing speed and accuracy in our proprietary Cat 8 ethernet cable. Mounted on all our Cat 8 patch cables. Furthermore, we offer our Cat7+ network connector, which in today's existing network of Cat6/7 is excellent for e.g. service, re-termination, with several occasions when a reliable, secure connection is desired. Gold plated and shielded.

- Easy mount - quick and simple to mount on-site
- Exemplary performance - Keeps the Supra Cat 8 ethernet cable astonishing speed and accuracy
- Heavy 24K gold plating - No corrosion and maintained conductivity also when frequently connected
- Sturdy cable strain relief - Will not disrupt even when handled, e.g. adding cables to a switch under operation
